# 1957 SUPPLEMENT

To be used with our 1956-57 catalogue

Dear Garden Friends:

LIBRARY

RECEIVED

★ FEB 27 1957 ★

U. S. Department of Agriculture

We list for the first time a number of delightful new plants which we have imported or grown on. Again this spring we are importing more new things from Europe which we hope to offer in 1958. The urge for new and better plants persists, so we are trying out more each year in the search for interesting garden materials—however the help problem is difficult and age and ill health threatens my own activities so that I am seriously considering selling off a part of the land. We shall reduce our plantings of Siberian and Japanese irises materially—so are offering real bargain collections in these groups.

Please re-read the terms of sale in our 1956-57 list carefully. DO please send adequate postage! Any surplus will be promptly refunded.

With Best Wishes for a pleasant gardening year, I am

Cordially yours,

Carl Starker
